BOARDING POLICY

As a service to our clients, we provide boarding for your dog / cat. Please be assured that your pet will receive the following:

Clean environment
Good nutritional food and plenty of water
Observation for signs of illness
Adequate exercise
Air conditioning / heat

Most important – LOTS OF LOVE

THESE ARE ALL INCLUDED IN YOUR BASIC BOARDING CHARGE.

Every pet that stays in the back of the hospital is required to get a flea spray treatment to kill any adult fleas that may be present.

You will receive an additional charge for the following services:

- *Elimination of external / internal parasites if present (ie- fleas, ticks, intestinal parasites etc)
- *Administration of medication (ours or yours), excluding heartworm preventative or vitamins.
 - *Special diets.
- *Emergency veterinary care if your pet becomes ill (this is why we require an emergency number).
 - *Baths

All pets **MUST** be current on their vaccinations, including the Bordatella vaccine as well as a stool check within 6 months.

If you have any questions or concerns, please ask. HAVE A SAFE TRIP!!!!

Gary B. Duchan, D.V.M.

Please read the following information carefully:

Animals will be released during regular office hours only. I understand and agree with all of the above, and further agree that if there should be any need for emergency surgery or medical treatment while my pet is in the hospital as a boarder, you have my permission to perform surgery and/or treatment and I accept full responsibility for the charges. Every effort will be made to contact you prior to any treatment.
